

Would your organization like to...

Build and strengthen team working skills?

Enhance your knowledge of your surrounding environment?

Enjoy spending time along the Menomonee River and Hank Aaron State Trail?

Play an active role in establishing and caring for a legacy of trails and parks being developed near your organization?

Receive public recognition for your commitment to revitalizing and maintaining this land?

Take the Stewardship "Stew Crew" Challenge!

Coordinate a team of 8-10 people excited to spend 2-3 hours each month from June through October along the Hank Aaron State Trail or in the Valley's park space engaging in activities such as weeding, picking up litter and planting.

Your Stew Crew will pick the time of day and date each month you'd like to volunteer. In exchange for your commitment, your Crew will receive: a designated section of the trail or park to care for, a toolkit to equip you for the tasks, and a unique opportunity to enhance and enjoy the Hank Aaron State Trail and the Valley's park space! All this for a modest fee of \$44 to cover supplies. Contact Dawn Follendorf at dawn@renewthevalley.org; (414)274-4660 for information on how to sign up a team.

The Friends of the Hank Aaron State Trail, Wisconsin Department of Natural Resources and Menomonee Valley Partners would like to recognize the following organizations and their Stew Crews for their dedication to maintaining the Trail:
